

Samvel Hakobyan

Front-end Angular Developer

Front-end Developer with over 4 years experience. I specialize in JavaScript and have professional experience working with Angular. During this time, I have faced various challenges and managed to offer the most optimal and the best solutions. Create complex web applications with user friendly interfaces. Develop efficient and reusable components and front-end solutions with ensuring a clear dependency chain, in terms of both application logic as well as file relationships.

PROFESSIONAL EXPERIENCE

Arnology LLC

2020 - 2023

Customer Service Manager

Arnology LLC was an outsourcing company, where I worked as a freelancer. During my work, I participated in customer calls, conducted interviews and worked on various projects.

Projects:

- EventSource (<https://www.eventsource.ca/>)
- HYCM (<https://www.hycm.com/en>)
- Q9 (<https://www.q9capital.com/en>) etc.

Technologies:

Angular, Bootstrap, Angular Material, NG Bootstrap, SwiperJs, RxJs, Moment.js, Email Templates, Google Tags etc.

Technamin

2023 - Present

Middle Front-end Angular Developer

Technamin is an iGaming software provider. The Front-end team consisted of two groups. I am developing the admin platform where you can control and set up all Gaming websites and see their activity.

Responsibilities:

- Develop efficient and reusable components and front-end solutions
- Ensuring high performance of applications and providing support
- Develop and maintain sufficient test coverage for all features
- Participate in re-architecting our client-side solutions
- Contributing ideas to our product development roadmap
- Collaborate with internal teams to produce software design and architecture.

Achievement:

- Gave a presentation about Zone.js and Angular Signals.
- Presentation about Angular Schematics.
